ROBERT O. ALABI

FULL STACK WEB DEVELOPER

Email | GitHub | LinkedIn | Portfolio AngelList

SUMMARY

I am Robert, a seasoned full-stack developer with expertise in both frontend and backend. I have honed my skills to perfection. One of my most notable achievements includes building a cutting-edge Expense Tracker platform on Ruby on Rails that has earned positive feedback from both peers and senior developers. I'm passionate about developing innovative solutions that deliver seamless user experiences and eager to join your team.

SKILLS

Front-End: JavaScript, React, React Native,Redux, jQuery, HTML5, CSS3
Back-End: Ruby, Rails, MySQL
Tools & Methods: Git, GitHub, Heroku, Netlify, Mobile/Responsive Development, RSpec, TDD, Chrome Dev Tools
Professional: Remote Pair-Programming, Teamwork, Mentoring

EXPERIENCE

HIGHLIGHTED PERSONAL PROJECTS   Remote
Full Stack Web Developer   September, 2022 – Present

Budget App
This project is about building a mobile web application where you can manage your budget: you have a list of transactions associated with a category, so that you can see how much money you spent and on what.
- Built with : Ruby on Rails, CSS

Awesome Books
This is a project that takes in a new book by a user, stores it to the local storage and displays it on the browser. The user also has the opportunity to edit and delete the books stored.
- Built with : JavaScript, CSS and HTML

ToDo App
This is a simple project that allows the user to develop the Todo List. The data is preserved in the local storage.
- Built with : JavaScript, CSS and HTML

MICROVERSE   Remote
Mentor (Volunteer)   November, 2022 – Present
- Mentored three junior developers which resulted in a 30% increase in their output.
- Proposed innovative improvements to the code organization of two junior developers, which resulted in a remarkable 20% reduction in the time taken for code reviews.

EDUCATION

MICROVERSE   September, 2022 – Present
Remote Full Stack Web Development Program, Full Time
- Spent 1300+ hours mastering algorithms, data structures, and full-stack development while simultaneously developing projects with Ruby, Rails, JavaScript, React, and Redux.
- Developed skills in remote pair-programming using GitHub, industry-standard gitflow, and daily standups to communicate and collaborate with international remote developers.
